Branding to your business is as important as reputation to you, wouldn't you rather have a good one?

Hexavia Logistics Limited is a Brand, Web and Human Capital Development Company. The core of our operations starts off in Brand and Web Development. Further ahead, we offer Human Capital Development Services which are categorized under Professional Advisory, Business Development, Training, Strategy, Analysis and Capacity Building

With a thorough understanding of the most strategic spheres that make up a growing business, we have been able to add value to our ever growing number of client whose business relies on quality packaging, branding, strategy, e-business, IT, business and human capital development for their day to day transactions and increase in productivity.

Our vision is to add impactful value to our clients through our services enough to make them a world class brand. You should be a beneficiary of this vision.

Whether you choose our Web, Brand or Human Capital Development services, be sure to get world class value for a local price. We understand today's dynamics of turning a good idea into a great business.

Our Services

We offer services that align branding, strategy and operational effectiveness with business. As humans and much as technology, challenges and competition has forced us to adjust our lives and businesses, the future of businesses would depend not only on the product or services being offered but the dynamic approaches to branding, packaging and information relative to its operations. Hexavia helps in creating the best platforms that would help you reduce cost while increasing productivity and profit. Our services includes:

Brand & Web Development

We build brands. Our cutting edge designs are breathtaking. Our *team is creative and experienced in merging arts with technology for the sake of your business*. Wouldn't you rather have a crisp looking packaging, professional website, branding, graphics and creative conceptualization of designs added to the aesthetics and progress of your organization? We offer web development services using the most modern programming syntax for the best output in usability. Our websites are known to be efficient, aesthetically appealing with full features and after launch service and maintenance. Our jobs and track record tells who we are. Also, we do logos, flyers, posters, stationeries, brochures as well as customization of both stationery and promo materials. We offer all kinds of prints.

Our philosophy of business perception is that the only thing more important than what you're selling is what the buyer believes that he is buying. Perhaps you should introduce your brand to us and we'd introduce them to qualitative branding and web development services using the best technologies and skills possible.

Business Development

As much as we offer services in Branding and Web Development, we also offer more expansive and strategic service in business consultancy. We help take your business to the professional pedestal that it needs to be. We write, design and build company profiles, business plans, brochures, manuals as well as operational management and marketing workflow. Further ahead, we conceptualize and develop ideas that produces very effective business and project work flow, operations, strategy and management.

Human Capital Development

This is a very vital part of our dream. We are powered by the drive to raise a set of successful people that'd build a generation of value. We started off this dream through the highly successful foundation 360 and Potters Lounge. Both have gone ahead to become perhaps our society's most striking and impactful human capital development innovations in recent times. Out of this concept come our training, events and projects on human capital development. We offer training and consultancy services to individuals, firms, community and systems. Our platforms can be suited to fit both personal effectiveness as well as organizational operations. We offer both function specific trainings as well as customized trainings to suite a need or cause.

Other Services

We have a special offer we call our Hexavian “Go-All-in-One” Package. This all in one package is for new SME’s and businesses. It includes company incorporation, business plan, company profile, branding, website and start up marketing campaign all in a two weeks start up timeline plan. An arm of our operations offers Public Relations and marketing communications for these clients. Our spin off services includes bulk SMS, Newsletter design and other campaign development processes. On a larger scale, we do supplies ranging from stationeries, machineries and deployments of IT and software infrastructures that integrate Enterprise Resource Management into database and network administration to ensure your organizations efficiency and effectiveness.

At this point we welcome you to our world, introduce your idea, team, product and organization to us and we’d introduce them to the next level. We are Hexavia, welcome back to the future.
